

## Molecular HUGO

### *Ingredients:*

500 ml prosecco, 75 ml lime juice, 125 ml elder flower syrup, a few leaves of fresh mint, app. 5-6 TblSps cellulose powder (available [HERE](#) or ask in your pharmacy)

### *Preparation:*

Mix 300 ml prosecco, the elderflower syrup and the lime juice with the mint leaves. Add the cellulose powder and mix thoroughly with a blender (or even better: filter the mixture into a Seltzer Bottle and spray it into a large bowl). Fill half of the cocktail glasses with prosecco and top it with the foam.

**Cheers!**
